Publications and Reports:

1. Nieto, A.S., Ghaboussi, J., Kim, K.J., and Donath, F.A., "Heat Transfer and Thermomechanical Effects in the Reference Repository system in Bedded Salt", Sandia National Laboratories, 1980.
2. Ghaboussi, J., Kim, K.J., and Momen, H., "Modeling and Prediction of Behavior of Sand Under Arbitrary Stress Paths". submitted in June 1982 to the International Workshop on Constitutive Behavior of Soils, Grenoble, France, 6-8 September 1982.
3. Ghaboussi, J., and Kim, K.J., "Analysis of Saturated and Partially Saturated Soils", submitted to International Symposium on Numerical Models in Geomechanics, 13-19 September 1982, Zurich, Switzerland,
4. Kim, K.J., "Finite Element Analysis of Nonlinear Consolidation", Ph.D. Thesis, University of Illinois at Urbana-Champaign, 1982.
5. Blouin, S.E. and Kim, K.J., "Explosion Induced Liquefaction in the Pacific Proving Grounds", Interim Report to Air Force Office of Scientific Research, Washington, D.C., February 1983.
6. Ghaboussi, J., Hansmire, W.H., Parker, H.W., and Kim, K.J., "Finite Element Simulation of Tunneling Over Subways", Journal of Geotechnical Engineering, Vol. 109, No. 3, March 1983.
7. Kim, K.J., and Blouin, S.E., "Response of Frozen Backfilled Tunnels to High Intensity Air blast Loadings", Draft Report to CRREL, July 1983.
8. Blouin, S.E. and Kim, K.J., "Use of Frozen Backfill as a Combination Egress/Heat Sink System for Deep Basing", Draft Report to Bureau of Mines, October 1983.
9. Ghaboussi, J., and Kim, K.J., "Quasi-static and Dynamic Analysis of Saturated and Partially Saturated Soils", Mechanics of Engineering Materials, John Wiley and Sons Limited, Edited by C.S. Desai and R.H. Gallagher, 1984.
10. Kim, K.J., Blouin, S.E., and Shinn, J.D., "Uniaxial Strain Response of Idealized Earth Materials to High Intensity Pressure Loadings", Draft Report to Defense Nuclear Agency, January 1984.

11. Blouin, S.E. and Kim, K.J., "Undrained Compressibility of Saturated Soil", Draft Report to Defense Nuclear Agency, February 1984.
12. Kim, K.J., and Blouin, S.E., "Response of Saturated Porous Nonlinear Materials to Dynamic Loadings", Final Report to Air Force Office of Scientific Research, Washington, D.C., May 1984.
13. Rochefort, M.A., Kim, K.J., Piepenburg, D.D., and Drake, J.L., "Preliminary Design Procedures for Hardened Tunnel Liners", Draft Technical Report to the Department of Army, Omaha District, Corps of Engineers, Contract No. DACA 45-84-C-0128, September 1984.
14. Blouin, S.E. and Kim, K.J., "Hydrologic Response of Deep Based Systems to Blast Loadings", Draft Report to U.S. Army Corps of Engineers, Omaha District, November 1984.
15. Shinn, J.D. II, Smith, E.B., Kim, K.J., and Blouin, S.E. "A Semi-Empirical Ground Shock prediction Technique for High Explosive Air blast Simulations", Draft Report to Defense Nuclear Agency, December 1984.
16. Kim, K.J., Piepenburg, D.D., and Merkle, D., "Influence of the Intermediate Principal Stress on Rock Tunnel Behavior", DNA-TR-86-52, Defense Nuclear Agency, Washington, D.C., January 1986, also Presented for the Proceedings of 2nd International Conference on Constitutive Laws in Engineering Materials at Tucson, January 1987.
17. Kim, K.J., Blouin, S.E., and Timian, D.A., "Experimental and Theoretical Response of Multiphase Porous Media to Dynamic Loads", Annual Report 1, Applied Research Associates, Inc., New England Division. Prepares for Air Force Office of Scientific Research, Washington, D.C., 20332, August 1986.
18. Kim, K.J., Rochefort, M.A., and Piepenburg, D.D., "Numerical Analysis of Nonlinear Liner-Medium Interaction, Part I. Cylindrical Tunnel Subjected to Axisymmetric Loading (Theory)", Technical Report to Defense Nuclear Agency, Washington, D.C., 20305, December 1986.
19. Kim, K.J., Davister, M.D., and Piepenburg, D.D., "Numerical Analysis of Nonlinear Liner-Medium Interaction, Part II. Parameter and Case Study", Technical Report to Defense Nuclear Agency, Washington, D.C., 20305, December 1986.
20. Kim, K.J., Davister, M.D., and Piepenburg, D.D., "Numerical Analysis of Nonlinear Liner-Medium Interaction, Part III. Tunnels Subjected to Biaxial Loading", Technical Report to Defense Nuclear Agency, Washington, D.C., 20305, Dec 1986.

21. Kim, K.J., Blouin, S.E., and Timian, D.A., "Experimental and Theoretical Response of Multiphase Porous Media to Dynamic Loads: Technical Progress Report for Second Year Effort", Draft for Air Force Office of Scientific Research, Washington, D.C., 20332, January 1987.
22. Kim, K.J., "Design and Analysis of Deep Underground Tunnels Hardened for Nuclear Weapon Effect, Section 7: Analysis Procedure", Edited by D.D. Piepenburg. In Review for Defense Nuclear Agency, Washington, D.C., 20305, January 1987.
23. Kim, K.J., Blouin, S.E., Chitty, D.E., and Merkle, D.E., "Experimental and Theoretical Response of Multiphase Medium to Dynamic Loads", Final Report. Prepared for Air Force Office of Scientific Research, Washington, D.C., 20332, September 1988.
24. Kim, K.J., and Blouin, S.E., "Influence of Pore Water on the Calculated Response of Porous Limestone to a Confined Explosion", Technical Report to Defense Nuclear Agency, Washington, D.C., 20305, DNA-001-86-C-0149, October 1989.
25. Blouin, S.E., Chitty, D.E., Rauch, A.F., and Kim, K.J., "Dynamic Response of Multiphase Porous Media", Annual Technical Report. Prepared for Air Force Office of Scientific Research, Washington, D.C., 20332-6448, March 1990.
26. Blouin, S.E., Chitty, D.E., Rauch, A.F., and Kim, K.J., "Dynamic Response of Multiphase Porous Media", Annual Technical Report 2. Prepared for Air Force Office of Scientific Research, Washington, D.C., 20332-6448, June 1991.
27. Kim, K.J., "Evaluation of Nonlinear Finite Element Computer Program SMAP-S2", Presented for Korean Geotechnical Society Conference on Computer Utilization in Geotechnical Engineering, November 1991.
28. Kim, K.J., Chitty, D.E., and Blouin, S.E., "Material Modeling for Fracture Joints of Salem Limestone", Draft Final Report for U.S. Army Engineer Waterways Experimental Station, Vicksburg, MS 39181-0631, Contract DACA 39-89-0059, March 1993.
29. Blouin, S.E., Chitty, D.E., Rauch, A.F., and Kim, K.J., "Dynamic Response of Multiphase Porous Media", Final Technical Report for Air Force Office of Scientific Research, Washington, D.C., 20332-6448, June 1993.
30. Brown, W. and Kim, K.J., "Development of Multiphase Effective Stress Modeling Procedures for Simulation of Surf Zone Mine Countermeasures", Final Report to White Oak Naval Surface Warfare Center, 10901 New Hampshire Avenue, Silver Spring, MD 20903-5000, Contract No. N60921-93-C-0073, Oct. 1993.

31. Kim, K.J., and etc., "Structural Failure Analysis of Tae-Ku Subway Station Due to the Gas Explosion", Report Published by Korean Civil Engineering Society, August 1995.
32. Kim, K.J., and etc., "Consolidation and Creep Finite Element Program Development", Final Report Published by Chung-Ang University, Samsung Heavy Industries Co., Ltd. and Korean Geotechnical Society, December 1995.
33. Kim, S.H., Kim, J.W., and Kim, K.J., "Three-Dimensional Two-Phase Code for Dynamic Analysis of Saturated Porous Media", Third Asian-Pacific Conference on Computational Mechanics, Sheraton Walker Hill Hotel, Seoul Korea, September 1996.
34. Kim, K.J., Bae, G.J., Moon, H.D. and Kim, C.Y., "A Study on the Theory and Its Verification of Dynamic Analysis Program (MPDAP) for Modeling of Saturated Multi-Phase Porous Media", Journal of the Korean Geotechnical Society, Vol. 13, No.1, February 1997.
35. Kim, K.J., and Kim, H.M., "Semi-Analytical Solution for Axisymmetric Tunnels in Durcker-Prager Medium", Journal of the Korean Geotechnical Society, Vol. 13, No. 2, April 1997.
